SWAIM'S PANACEA has been for more than 30 years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Professor of Surgery, Pa. University.
Valentine Mott, M. D., Prof. of Surgery, N. Y. University.
W. P. Dewees, M. D., Prof. of Mid., Pa. University.

J. Chipman, Member of Royal College Surgeons, London
Sir Thomas Pearson, Maj. General British Army, Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S PANACEA—PHILAD." and having the name Jas. Swaim, stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different ... ies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, old stand, Seventh St., below Chestnut, Philadelphia, and sold by all respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name of SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

THE trustees of the African Methodist Episcopal Church, in this city, feel exceedingly [illegible] a year since and now exposed to decay. The importance of some place of worship sufficiently large to accommodate the large number of colored persons who collect here in the summer, is severely felt, and the poverty of the church obliges them to depend principally upon the generosity of the public, for means to commence the work. They have an offer of a loan of $500 for that purpose, provided they can realise a like amount in any other way, which together, will enable them to raise and cover the building, after which they expect to complete it without further aid, and as rapidly as their means will allow.

With this view one of their number will call upon our citizens to ascertain what amount can be realized from their philanthropy, and with assurance from other churches of the same denomination elsewhere, they hope to occupy it early in the coming summer. No sums of money subscribed will be called for unless the whole amount required is realised, and in order to ensure the proper disposition of receipts it is requested that no money be paid unless receipted for by R. R. HAZARD, Jr.,

WEDNESDAY MORN'G, MAY 2, 1855

☞In continuation of our remarks yesterday, we ask why is this Know Nothing organization a secret one, and why is no man voted for unless he is a member of the Order and demeans his character by a secret *pledge of honor*, given in a manner that he would decline in any ordinary business transaction? It is nothing but proscription. Will any man pretend that Anderson C. Rose, the young man from Block Island, who is just being educated, is a better American in heart and in spirit than our present worthy Lieut. Governor, John J. Reynolds? Or that John R. Bartlett is a better American than William R. Watson, who has been waging a newspaper war against the foreign voters for the last ten years, and long before this humbug Know Nothingism ever entered the head of Ned Buntline, one of its principal founders, or any other such worthless lout? Or that Charles Hart is a purer and more undefiled worshipper of the goddess Liberty, at the American shrine, than Christopher Robinson? Or that Samuel A. Parker would fight any more valiantly in defence of the American system than Samuel B. Vernon? These are grave questions, and a truthful answer is a matter of importance in the argument. If these questions are answered in the negative, as they must be, then these men have been proscribed and turned out of office simply because they are not members of this worse than Jesuitical order, for no one will pretend that our present State officers have not ably and faithfully discharged their duties, in all respects during the past year. It is contended by those who pretend to be most faithful in the Order, and to worship its *principles* with an earnest devotion, that the Whig and Democratic parties have become corrupt, and they intimate by their conversation and conduct, that it has been reserved for them to purify the great political body-corporate; in reply to this, all that we have to say is that if any such corruption existed in the two great parties, they have both been materially relieved of their diseased parts by the organization of this Order, for it has become the reservoir of the same. We do not mean by this remark to be understood as saying that there are no worthy men in the Order; far from it. It has contained and still contains many excellent and worthy men, who, by some strange infatuation, or with the misguided hope of accomplishing some particular object, have been beguiled from the path of political rectitude, and seduced into this have already withdrawn, in disgust, and very many others will speedily follow their example. The only link which unites the most zealous of this Order is the cohesive principle of plunder; and as soon as all the offices are disposed of, the once powerful compact will be like the baseless fabric of a vision. It will be but a short time before this Order will vanish, and parties will be divided the same as before,—that is, those who are worth having will return to their former political associates. Both parties will learn a good lesson by this movement,—they will have ascertained who can be relied on, when principles are at stake, and who can be trusted when storms thicken and break wildly and furiously about them.

There is a woman in Cincinnati (says the Times,) who keeps a grocery, attends faithfully to a fat pair of twins, does her own house-work, and yet finds time to give her lazy husband a sound thrashing three or four times a week, which he most richly deserves.

Real Estate in Bristol is on the rise. A house lot on Hope street, next south of the residence of Mr. Durfee T. Bradford, 50 feet front by about 110 feet deep, was recently sold for $1,050. The lot on State street, purchased by the Methodist Society, 114 feet front by 268 feet deep, sold for $3,500. Those abroad who wish to purchase real estate in Bristol should improve the present period, as after the completion of the railroad, there will most undoubtedly be an influx of population and a corresponding rise in property. The beauties and conveniences of the place are beginning to be appreciated, and many of the dwellers in Providence and other places are turning their thoughts hitherward.—*Bristol Phenix.*

Death a of Missionary.—Private letters from Ceylon mention the death by cholera of the Rev. David Poor, a venerable Missionary of the American Board. He died February 2d. The cholera was raging with much fatality at Ceylon.

The Emperor of the French has offered 1,000 guineas, open to Great Britain and Ireland, for a perfect broke charger for the Empress. He must be thorough-bred, quiet with troops, and stand fire.

Going to Europe.—The Buffalo Democracy learns that ex-President Fillmore is about to visit Europe.

Naturalising a Russian.—The master of the Jessie Mitchell, lately discharging guano in Leith Docks, from the island of Leone relates a humorous scene which occurred under his own eye in that island. The barque Atlantic, seized and sold in Lieth as a Russian prize, left the Island of Leone a day or two prior to the arrival of the Jessie Mitchell. One of the Russian crew had deserted from the Atlantic, and concealed himself on the island; but he afterwards discovered himself to the seamen, and declared his desire to renounce his allegiance, and become a British subject. How to effect the transformation was question which puzzled Jack greatly; however, on the arrival of the Jessie Mitchel,her crew, along with the seamen on shore, met in solemn conclave, and their united wisdom determined that as water is ever emblematical of purity, and its cleansing properties have been known and appreciated in all ages and countries it was the only medium which could effect the momentous change of converting a Russian into a true British subject! The conclave next adjourned to a small creek or basin a round the white pebble beach of which they arranged themselves, about three yards apart each with a buckets while the poor Russian commenced walking round the margin of the creek, repeating the form of objuration taught him by the tars, who took care, on their part, that he should receive from each a full bucket of water. This august ceremony completed, the sailors, with three hearty cheers, acknowledged him as a British subject, and admitted him, with all the honours, to their society. The whole proceedings, saith our informant, were conducted in the most orderly manner.—*Scottish Press*

The following is very affecting and very French:

The Empress and the Troops.—As the French Empress, unaccompanied by the Emperor, was walking on Saturday afternoon, in the Bois de Boulogne, with the carriage in waiting, the drums of a battalion of the Volliguers of the Guard, that happened to be on its way from St. Cloud to Paris, were heard; her Majesty entered the carriage which appeared to move out of the way, but the moment the troops saw the Empress they drew up in line, and she passed slowly in front amid the most enthusiastic shouts. The officer commanding the column approached the carriage door, took the Empress' hand, and pressed it to his lips. At this act the shouts were again renewed. The Empress appeared much affected at the manner in which she was received, for to all appearance the meeting was most unexpected.

A Dutchman's Logic.—In traveling in the cars from Cleveland to this city, some time since, we got into a conversation with a young gentleman who chanced to occupy a seat directly in front of us. As he was talk to us, we suggested that when the cars stopped again, he should turn the back of the seat and sit facing us. There was occupying the same seat with him, a pretty good looking, but raw Dutchman. Acting upon our suggestion, when we had arrived at the next station the gentleman stepped out into the walk of the car, and politely requested the Dutchman to do the same while he 'turned the seat.' The Dutchman looked at the seat very critically, and inquiringly said 'turn him?' yaw!

'Yes,' answered the gentleman. 'Just step out and I will show you how it is done.'

The Dutchman did as he was desired, when the gentleman turned the back of the seat, and requested the Dutchman to take the same position again, but of course, with his face toward the other end of the car.

'Nix, nix!' exclaimed the Dutchman, in evident alarm. I've paid for Cincinnati, and *must* go to Cincinnati. Dem so, carry me right back to Cleveland!'

No explanation would satisfy him and he would not be content till the gentleman occupying the seat with us changed places, and permitted him to ride with his face towards Cincinnati.

The passengers were convulsed with laughter at the logic of the Dutchman.—[Cincinnati paper.

Trouble, like capital, is usually two thirds borrowed.

☞A long procession of boys marched through the streets of Newburyport on Tuesday evening, to the sound of the fife and beating of two drums, carrying banners lettered, "No Popery."

"How is your husband, dear?" asked one lady of another.

"Oh, he is in a very bad state," was the reply. "And pray what kind of a state is he in?" still persisted the other.

"In the State Prison."

Sam on Latin.—At the town meeting in Warren the following resolution was offered the design being to abolish the study of the Latin language in the High school:

Resolved, That the school committee be instructed to have nothing but a thorough English education taught in our public schools; the alphabet, spelling, reading writing, arithmetic, geography, the history of our country and the English language.

The vote was declared carried, but the decision was doubted, and a hand vote demanded, when it was lost by five to one—So the girls and boys in Warren are still permitted to study Latin.

BY TELEGRAPH.

Norfolk, April 30.

The sloop of war Levant has arrived in Hampton Roads. She has been ordered in New York.

India Rubber Case.—On account of a telegraphic statement in reference to the India Rubber cases, published yesterday in New York, which some of the parties interested think would have a tendency to mislead—whether it was intended for such purposes or not—we are requested to state what actually took place at the opening of the Circuit Court in Connecticut on Tuesday.

There were several cases both at law and in equity in that Court, against parties sued as infringers of the Chaffee patent, among which were two suits at law, one in the name of Mr. Day, and one in the name of Mr. Chaffee, against the Hayward India Rubber Co. Mr. Richardson, one of the counsel for Mr. Day, stated that Mr. Day having recovered a final verdict in Rhode Island, in a case precisely like these cases had been advised by his counsel that he ought not to proceed with further trials at law against the several infringers, but that he might more properly proceed with suits in equity, as, if further proceedings were to be held necessary at law, a case which had been once partly tried in New York, against the New England Car Spring Company, was the one which should be pursued, as there was a special order in that case, and that the matter he supposed would be there discussed in a few days, and he should therefore discontinue the two suits at law and proceed only in equity cases.

This is a motion for injunction on the equity side of the Court in Rhode Island in the case lately tried there, which has been argued and is soon to be decided; and similar motions, we understand, will be heard before Judge Nelson and Betts, in this Circuit in other equity cases.—*N. Y. Daily Times.*

Fillibustering.—A correspondent of the New York Tribune, writing from Natchez, says that the Quitman enterprise against Cuba is killed, beyond all doubt.—The same writer says the expenditures reach one million of dollars.

A gentleman residing in the neighborhood of Cork, walking one evening met a young peasant girl, whose parents resided near his house. "What are you doing, Jenny?" said he, "Looking for a son-in-law for my mother sir" was the smart reply.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD,

These famous Pills are expressly combined to operate on the stomach, the liver the kidneys, the lungs, the skin and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all others have failed.

GENERAL DEBILITY. ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Doctors admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases.

Asthma	Debility	Liver Complaints
Bowel Complaints	Fever and Ague	Lowness of spirits
Coughs	Female Complaints	Piles
Colds	Head and Chest	Sore and Ulcers
Chest Diseases	Headaches	Secondary Symptoms
Constipation	Indigestion	Stone and Gravel
Dysentery	Inflammation	Venereal Affections

NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

SPRATT'S LIGHTNING RODS!

WITH branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron, and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen.

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by

FOR NEURALGIA AND RHEUMATISM.
DOCT. TRIPP,

WHO has devoted many years to the treatment of Neuralgia and Rheumatism, has succeeded in discovering a new remedy, which in the most severe as well as milder cases has proved an infallible remedy, and has fully met the approbation of eminent medical men, many of whose testimony he has in his possession.

The monsters Rheumatism and Neuralgia, so prolific of pain and misery, when it induces attacks upon the head, face, shoulders, back, loins, knees, feet, hands, &c., producing palpitation, fainting, distortion and deformity, have from all ages baffled the skill of eminent practitioners, nor has it been possible at any time to correct the vicieted state of the fluids by any outward application, such as pain killers, ointments, liniments, &c., but in all cases where a cure has been performed, it has been done with alkaline medicines used internally; all others giving but partial relief.

DOCT. TRIPP has no remedy that cures all ills that flesh is heir to, but for the above complaints he feels safe in saying that within the last four years he has not known a single case where it has not produced

IMMEDIATE RELIEF,

and a permanent cure. Whoever uses it for acute, chronic, inflamatory or mercurial Rheumatism or Neuralgia in any part of the system, in any degree of severity, or for pains of cancers or head-ache, and does not get immediate relief, may return the medicine at his expense; and the money will be refunded.

This remedy may be obtained of Dr. Tripp. No. 159 Union street, New Bedford, Mass., or will be sent to any part of the country by express.

All orders should be addressed to Dr. T., box 421, New Bedford.

N. B.—As heretofore, it will be furnished to all medical practitioners for their own use, gratuitously. s29—1y
